U.S. DISTRICT COURT E.D.N.Y.

Response to Summons.

It was stated that Pinnacle Security Patrol and me the Owner Ohusegun Olumofe willfully and blatantly violated the FLSA law. This was false and as I stated and I reiterate again it was explain with backup emails that Pinnacle do not pay overtime on some of the Contracts that we provide services on because most of these Contract were minimum wages Contract, we are paid most \$17.00 per hour by all GC's on projects and we paid our employees the required amount by law which was \$15.00 per hour. and after payroll taxes we are left with about \$.50 cent after payroll. AS we explain to the investigator's at the time. So to state that will willfully stole from the employees regarding this Overtime pay was a false statement and character assassination. We don't steal, neither will I be able to something that is against the law.

It was imply in the Summon that pinnacle security was stealing from their employees, this is not true, and its against what we stand for as a pinnacle Company and as individual. He cooperated fully with the investigation and most of statement from this Summon was wrong, and a ~~mispr~~ misrepresentation of the fact.

We are made to understand that, after the investigation it was determine that we should have hire more guards. instead of giving too many hours to each individuals, at the time, we are doing the guards a morally favor because 40 hours was not enough and we paid them the required pay. So it characterized our good gesture as stealing is ~~absound~~ and unfair.

We do not paid the guards less than the required amount. We received \$17.00 per hour from

Contractors, and we paid guards \$15.00 per hour. Our profit margin was less than \$2.50 and after payroll. So paying overtime at the time will be \$23 per hour and our contract payment was \$17.00.

So for the Summon to state that we stole, ~~the~~ from our employees, that was ridiculous.
